## Specialized magazine about waste management

The Waste magazine is intended for all the companies specializing in waste management and those dealing with or creating waste. Its subscribers also include state and public servants as well as large manufacturing companies that produce industrial or construction waste. It has been published for twenty-seven years and is distributed mainly via subscription. On a monthly basis, it informs about the situation in waste management and the companies concerned, new trends, experience, technologies and technical systems in CR and abroad, and environmental protection. The regular sections offer analyses and comments regarding legislation, discussions and real-life experience, as well as a current events overview. It also discusses various related and new areas, such as environmental management systems, IPPC or information technologies. A large section is also devoted to waste in public administration. The magazine is saddle-stitched, printed on quality glossy paper and contains 44 pages on average.

Month	Topic	Deadline	Distribution	Notes
1	Reuse and prevention of waste	4. 12. 2019	14. 1. 2020	
2	Collection (take back)*	15. 1. 2020	12. 2.
